### Unmatched Clinical Support:

- The PMC Clinical Team is ready to support you every step of the way.
- We have online resources at your fingertips 24/7, including a group curriculum toolkit.
- We connect you with our top therapists/social workers for peer-to-peer training and support.

### Opportunity Details:

- Conduct comprehensive patient assessments to develop individualized care plans.
- Collaborate with the interdisciplinary team to create and modify treatment plans.
- Likely assist with wound care, post-operative assessments, and pain management.
- Maintain accurate and up-to-date patient records, including assessments, interventions, and progress notes.

- 
- Collaborate effectively with physicians, therapists, social workers, and other healthcare professionals to provide comprehensive patient care.
  - Educate patients and their families within the community about their medical conditions, treatment options, and self-care strategies.

As an **Behavioral Health Program Float Nurse**, your focus will be on the 3Cs; Care, Community and Compliance.

**Care:** Manage, lead, and collaborate with a small, interdisciplinary team including a psychiatric physician, a social worker, and a CNA to provide high-quality care to our Older Adult patients as ordered.

**Community:** Assist with engaging your local community (hospital staff, providers, and community resources) through education, presentations, and one-on-one encounters, informing them of our program's services and the overall importance of mental health.

**Compliance:** Ensure implementation of compliant therapeutic services for patients utilizing the program, and oversee excellent patient care, including intake assessments, fall assessments, and treatment plan development.

#### **Requirements**

- Registered Nurse or licensed in the state of practice - required
- Graduation from a state-approved school of nursing (ASN or BSN) - required
- Psychiatric Nursing experience - preferred
- Passion for working with Older Adults – preferred
